Where sculptural forms, precious materials and exceptional craftsmanship transform interiors into expressions of individuality.

THE ART OF MAKING A STATEMENT

A WORLD OF COLLECTIBLE DESIGN BY COVET HOUSE

A truly remarkable interior is never defined by furniture alone. It is shaped by the character of its pieces, the dialogue between materials, and the emotions they evoke within a space. Through a curated selection of statement furniture and collectible design, Covet House explores this philosophy, bringing together sculptural silhouettes, intricate finishes and expressive compositions that turn everyday living into an extraordinary experience.

From grand dining rooms and sophisticated living spaces to intimate bedrooms and distinguished private interiors, each piece reveals a different perspective on contemporary luxury. United by a passion for craftsmanship and artistic expression, these designs celebrate the beauty of individuality, inviting interiors to become personal statements of style.

A REFLECTION OF GRANDEUR

A sophisticated dining room is shaped by the interplay of sculptural furniture and expressive details. The **Empire Dining Table** brings a sense of grandeur to the space, combining bold proportions with rich materials and metallic accents that reflect the artistry of fine craftsmanship. Nearby, the **Glance Mirror** introduces a striking visual dimension through its fragmented composition, transforming reflection into an artistic statement. Together, these pieces create a compelling dialogue between structure and light, adding depth, character and a distinctive sense of luxury to the interior.

A LEGACY OF CRAFTSMANSHIP

Rooted in the richness of Portuguese heritage, the **Heritage Sideboard** brings traditional artistry into a contemporary setting. Inspired by the decorative beauty of hand-painted azulejo tiles, its design combines intricate details with refined materials, creating a striking balance between cultural references and modern sophistication. Every element contributes to a distinctive visual identity, transforming this functional piece into a celebration of craftsmanship and decorative heritage. Whether placed in a formal dining room or an elegant entrance hall, Heritage makes a lasting impression through its timeless character.

AN ICON OF CONTEMPORARY ELEGANCE

The **Nº 11 Dining Chair** brings a distinctive sense of elegance to the art of dining. Its sculptural silhouette and refined upholstery create a harmonious balance between visual lightness and inviting comfort, while its carefully considered details reflect a commitment to craftsmanship.
Designed to complement sophisticated dining interiors, Nº 11 stands confidently on its own or as part of a curated ensemble, adding personality and understated drama to the table. A contemporary expression of collectible design, it elevates everyday gatherings into more memorable occasions.

WHERE GEOMETRY BECOMES ART

The **Pixel Cabinet** challenges conventional ideas of storage furniture through a striking composition of geometric forms, varied finishes and intricate handcrafted details. Inspired by the visual language of pixels, its faceted exterior creates a dynamic interplay of colour, texture and light, revealing new perspectives from every angle. The result is a sculptural statement that combines practical function with an unmistakable artistic presence. In a sophisticated living room, private lounge or entrance hall, Pixel transforms storage into an expression of individuality and contemporary design.

A PRIVATE WORLD OF LUXURY

A refined interior is often defined by the unexpected relationship between comfort and exclusivity.
The **Angra Armchair** brings sculptural elegance to a private lounge or dressing room, creating an inviting place to pause within a carefully curated setting. Complementing it, the **Millionaire Safe** reimagines secure storage as an expression of luxury, bringing a distinctive furniture-like presence to the world of private valuables. Together, the two pieces create an atmosphere of discreet sophistication, where comfort, personal treasures and exceptional design become part of the same narrative.

NATURE IN UNEXPECTED FORMS

The beauty of a thoughtfully designed living space lies in the contrast between its elements. The **Imperfectio Armchair** embraces the expressive character of irregular surfaces, celebrating the beauty of imperfection through a sculptural form that feels both artistic and inviting. In the middle, the **Eden Center Table** draws inspiration from the organic world, introducing a nature-inspired silhouette that brings movement and visual interest to the composition. Together, the pieces create a distinctive living room setting where organic references, expressive textures and contemporary craftsmanship meet in a harmonious dialogue.

A DIALOGUE IN MARBLE

The **Navarra Center Table** brings the timeless beauty of natural stone into the contemporary living space. Defined by a striking interplay of black and white marble, its sculptural composition celebrates the contrasts of colour, texture and organic veining. The interplay between geometric forms and carefully crafted details gives the piece a distinctive architectural presence, transforming the centre table into more than a functional element. Bold yet refined, Navarra anchors the living room with an artistic statement that reflects Covet House's vision of luxury, where exceptional materials meet expressive design.

NATURE’S UNEXPECTED BEAUTY

Nature often reveals its most compelling beauty through unexpected formations. The **Lapiaz Sideboard** draws inspiration from karst landscapes, translating the fractured surfaces of stone into a sculptural furniture design. Its mirrored exterior opens into dramatic organic forms, revealing metallic details that evoke the richness hidden beneath the surface. This interplay between reflection, texture and material gives the sideboard a distinctive presence, allowing it to function as both a practical storage piece and an artistic focal point in a sophisticated interior.

A STUDY IN ORGANIC GEOMETRY

The **Newton Console** explores the relationship between geometry and movement through a distinctive sculptural structure. Inspired by the traditional art of metal casting, its composition of spherical forms creates a striking pattern, complemented by a dramatic finish and golden accents.
The result is a console that appears almost architectural, bringing depth and visual rhythm to an entrance hall or living space. Newton transforms a transitional area into a moment of design, proving that even a single piece can define the atmosphere of an interior.

THE ART OF GOLDEN CONTRAST

The **Monochrome Gold Sideboard** brings a bold interpretation of contemporary luxury to the art of storage. Its striking silhouette celebrates the interplay between sculptural form and a radiant golden finish, creating a captivating statement that commands attention without compromising sophistication. The interplay of texture, light and metallic tones lends the piece a distinctive presence, allowing it to stand out in elegant living rooms, formal dining spaces or distinguished entrance halls. More than a functional element, Monochrome Gold embodies a design philosophy in which craftsmanship and expressive details transform furniture into an object of desire.

THE ALLURE OF EMERALD ELEGANCE

The **Diamond Emerald Sideboard** transforms functional furniture into a sculptural expression of contemporary luxury. Its faceted geometric silhouette creates a captivating interplay of light and shadow, while the translucent emerald lacquer introduces depth and a rich jewel-like character.
Accented with gold and silver leaf, the handcrafted design reveals a striking balance between colour, texture and artisanal detail. Both a statement of craftsmanship and a practical storage piece, Diamond brings a distinctive sense of drama to sophisticated living and dining spaces, where every detail contributes to an atmosphere of individuality and refined elegance.

THE ART OF NATURAL TRANSFORMATION

Inspired by the striking formations of karst landscapes, the **Lapiaz Console** translates the beauty of nature's unexpected fractures into a sculptural furniture piece. Its distinctive design evokes surfaces shaped by time, creating an interplay of organic contours, reflective finishes and contrasting textures. More than a functional addition to an entrance hall or living space, Lapiaz becomes an artistic focal point, bringing depth and character to its surroundings. Its expressive presence captures the essence of contemporary luxury: the transformation of natural inspiration into a remarkable design statement.

COVET·HOUSE

CURATED DESIGN

Through this selection, Covet House celebrates a vision of interiors shaped by individuality, craftsmanship and the expressive power of design. From statement dining tables and sculptural seating to intricate mirrors, distinctive storage pieces and collectible accents, each creation contributes a different perspective to the art of living beautifully.

The result is a world where furniture becomes more than a functional necessity. It becomes a reflection of personal taste, a conversation between materials and forms, and an enduring expression of the spaces we choose to call our own.
