We start with the **dining room** that has a beautiful wooden floor that goes very well with the neutral tones, the white marble and the touch of gold present in this division, a room that really transmits a sense of calm and peace. A truly magnificent aesthetic, conceived by uniting the classic elements of the architecture with the contemporary and modern furniture and lighting pieces. For this division we only feature **Covet Collection** (Materia capsule collection) with our incredible Branch Lamps Hanging, the Body chair and finally our Marble table big and also the Marble table small.

As we move on to the next division, we have the **living area** we continue with the same style with very light neutral colors, its dominated by a modern and simple style that features **Caffe Latte** and **Covet Collection** in the same space, with the Sugar modular sofa and the Liberica console from Caffe Latte and the Branch wall lamp from Covet Collection.

Finally for this one we include the **kids bedroom** that really is a magical room fit for every kid, with a beige and blue tones, in this division we can see how well **Covet Collection**, **Circu** and also **Brabbu** mix together and create this dreamy bedroom, we can see once again the Body chair from Covet Collection and then we have the Cloud Sofa, the Cloud desk and finally we have the Padaung stool and the Kayan mirror from Brabbu.
